

Delivering the Gospel

Despite closed borders and hearts in North Korea, The Voice of the Martyrs has succeeded in helping many people in the most restricted nation on earth. Through the generous contributions of our readers, VOM has developed innovative projects to share the gospel with the North Korean people, including launching gospel balloons and providing food and Bibles. One of the most effective outreach projects is support of one-on-one contact between Christians in China and Christians in North Korea. Contributions fund the trips of North Korean missionaries as well as support secret Bible schools that help train leaders and plant new churches inside the Hermit Kingdom. Your support is also used to fund radio broadcasts into North Korea. A dramatic reading of the New Testament in the North Korean dialect was recently completed and is now being broadcast by shortwave radio and other means. Please take this opportunity to support VOM and our work in North Korea with your gifts. Together, we can stand with these courageous Christians who risk their lives to see the gospel bear fruit in North Korea.
